**MotionHeat+** technology utilises specially designed vents and fan heat to evenly distribute hot air around the oven cavity. It reaches the desired temperature rapidly with no need to preheat, saving time & energy. Perfect for multi-level cooking without the transfer of flavours, achieving even results every time.

#### TELESCOPIC RUNNERS

All SENSE ovens come with one full extension telescopic runner making it easier to check food as it cooks and reducing the risk of burning yourself on the oven interior.

#### ROTISSERIE

If you like perfect joints oven that features a rotisserie rack, great for cooking succulent roasts.

#### SOFT CLOSE

A clever soft close door which activates when the door is inches away from the closed position. The hinge gently moves the door into place, preventing it from coming to an abrupt close.

DirectHeat

Designed with efficiency in mind, DirectHeat+ forces the heat directly towards the base of the pan via 45° inclined flame. More heat hits the base of the pan rather than escaping around the sides, therefore decreasing boiling time and bringing food to temperature more rapidly.
